THE KERRIER DISTRICT COUNCIL, being the Local Planning Authority, **HEREBY GRANTS PERMISSION** for the following development proposed in your application dated the 6th day of April 1995, namely:

Description of Development:

Erection of sixteen dwellings and domestic garages with associated access road and services

Location of Development:

Vicarage Road
Porthleven

being land Grid Reference Number 6300-2620 of the Parish of Porthleven, and for which permission was granted on an outline application on the 3rd day of November 1992 under Decision Notice Number CC/K/4/26.

The conditions contained in the said Decision Notice Number CC/K/4/26, in so far as the same are still operative and capable of taking effect, will continue to apply to the development permitted thereby.

In accordance with the accompanying plan(s) and

SUBJECT to the conditions set out on the attached SCHEDULE-----

Your **ATTENTION** is drawn to the **NOTES OVERLEAF**.

NOTES

This decision does not relieve the applicant of the obligation to obtain any necessary building regulation or other approval of the Kerrier District Council in whose area the land is situated and to comply with any general statutory provisions in force in the area.

If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State for the Environment under section 78(1) of the Town and Country Planning Act 1990. If you want to appeal, then you must do so within six months of the date of this notice, using a form which you can get from the Department of the Environment at Tollgate House, Houlton Street, Bristol BS2 9DJ. The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the provisions of the development order and to any directions given under the order. In practice, the Secretary of State does not refuse to consider appeals solely because the local planning authority based its decision on a direction given by him.

If either the local planning authority or the Secretary of State for the Environment refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

In certain circumstances compensation may be claimed from the local planning authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference of the application to him. These circumstances are set out in sections 114 and related provisions of the Town and Country Planning Act 1990.
