Case reference: 25/0574/RCU 'Support Proposal'

Dear Barnet Council,

My children have had regular lessons at this facility and I can personally vouch for its significance as an invaluable community asset. The lessons are delivered with great care and respect for all involved. Without these lessons, many children would face considerable difficulties in adjusting, and we risk losing a crucial local resource that significantly benefits young people. Barnet is fortunate to have this pool, which provides a unique and calming environment that many children would not otherwise experience. It is the only pool in the area offering this exceptional service. Many children need to swim in a pool as quiet as this one as they have additional needs and just can't manage in loud, busy environments. If you stopped these lessons all these children would be without an opportunity to learn to swim. I have seen firsthand the outstanding quality of the instructors and the remarkable results they achieve. If this proposal does not proceed, Barnet will lose these highly skilled, local teachers to other boroughs, leaving local children without this invaluable opportunity.

Yours sincerely,

Caroline Griffiths
