Dear Sirs

Case Reference: 25/0574/RCU

I have attended private swimming lessons at this residence and can confirm that the service is a fundamental resource for the community. This is a very low key set up with no negative impact as proven in the independent sound survey carried out. The lessons are delivered in a calm, quiet manner. Losing these lessons would be devastating for so many children and they would risk not learning key life saving skills.

Yours Sincerely

Rachel Spencer
