

Dear Planning at Barnet,

Case reference: 25/0574/RCU
'Support proposal'

My daughter currently attends private swimming lessons at this location. The facility is a valuable resource to the community, operating in a respectful and thoughtful manner. These lessons are crucial for many children who may otherwise miss out on learning essential life skills. The atmosphere is calm and considerate, making it a positive addition to the local area. The loss of these lessons would be devastating for numerous children in the community.

Thank you so much for your attention
