Dear Sir/Madam

I am writing to express my full support to continue providing swimming lessons. My children have been having lessons here and I can confidently say that it is a vital asset to our community. In particular for those with additional needs who can't learn to swim in larger swimming environments. The lessons are carried out in a calm and respectful manner giving a vital opportunity to those who may not otherwise learn to swim. If these lessons were to be stopped, many children would face difficulties and we would lose this chance that greatly benefits them.

Yours,

Rachel Joseph
