Dear Planning,

Case reference: 25/0574/RCU
'Support proposal'

My sons have had swimming lessons at this address. This is such an asset to the area and is run in a very respectful way. These lessons provide a lifeline to many children who otherwise would not learn very important life skills. The set up is quiet, respectful and an asset to the local community. Losing these lessons would be devastating for so many local children especially those with additional needs who find larger pools overwhelming.

Yours Sincerely
Juliette
