Dear Planning

Case reference: 25/0574/RCU
'Support proposal'

My children have private swimming lessons at this address. This is such an asset to the area and is run in a very respectful way. These lessons provide a lifeline to many children who otherwise wld not learn very important life skills. The set up is quiet, respectful and an asset to the local community. Losing these lessons would be heartbreaking for so many local children especially those with additional needs who can't use mainstream facilities. This is a bespoke, quiet, peaceful pool that helps so many.

Yours Sincerely

Rivka Aberman
