Case Reference: 25/0574/RCU

Dear Sir/Madam,

I express my strong support for the continuation of swimming lessons at this facility.

All of my children have been swimming here, and I can confidently say it is a vital resource for the local community. This is especially true for children with additional needs, who are often unable to participate in lessons held in larger, busier swimming environments. The calm setting provided here allows these children a unique and valuable opportunity to learn to swim—something they may not be able to do elsewhere.

Discontinuing these lessons would significantly impact many families and deprive children of an essential life skill in a setting tailored to their needs.
