

Dear Barnet Council,

I have regularly attended private swimming lessons at this facility and can attest to its importance as a valuable community resource. The lessons are conducted with care and respect for all participants. Without these lessons, many children would face significant challenges in adapting, and we risk losing a vital local amenity that greatly benefits young people. Barnet is fortunate to have this pool, offering a unique and peaceful environment that many children would otherwise not have access to. It is the only pool in the area providing this exceptional service. I've witnessed firsthand the exceptional quality of the instructors and the impressive results they achieve. If this proposal does not move forward, Barnet will lose these highly skilled, local teachers to other boroughs, and local children will be deprived of a valuable opportunity.
