

Dear Sir/Madam,

Case Reference: 25/0574/RCU

To whom it may concern,

I am writing in strong support of this proposal. As a parent whose child had lessons here, I know first hand what an asset this is to the local community —particularly for families who, due to various personal, SEND or religious reasons, are unable to use larger public pools.

The lessons are run respectfully and professionally, providing a key opportunity for children who might not otherwise learn to swim. Discontinuing them would be a total loss for our community.

Kind regards,
