Dear Sir/Madam,

I want to write to say I strongly support for the continuation of swimming lessons here.

My child has attended lessons and I can confirm that it is a key resource for our community, especially true for children who are often unable to participate in lessons held in larger, busier swimming pools. The peaceful setting provided here allows these children a unique and valuable opportunity to learn to swim—a life saving skill.

Discontinuing these lessons would significantly impact many families and deprive children in a setting tailored to their needs.

Yours sincerely,

Hanan
