

Hello. I write to object to this commercial endeavour in the heart of a residential area. I live locally and the traffic on this reduced width road is already congested with limited parking during most times of the day. Adding a commercial endeavour to this road will exacerbate the position.

There is also the added nuisance to the immediate and surrounding neighbours to consider due to the level noise from activities at this swimming pool, and the equipment to run the facility. This type of endeavour is wholly unsuited in a residential setting and I therefore object to the planning application.
