

Comments for Planning Application 25/0574/RCU

Application Summary

Application Number: 25/0574/RCU

Address: 30 Allandale Avenue London N3 3PJ

Proposal: Use of the existing ancillary swimming pool building for commercial operations
(Retrospective application)

Case Officer: Olivia Becci

Customer Details

Name: Mr J Berman

Address: 32 Allandale Avenue London N3 3PJ

Comment Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: We live immediately next door to the application site. We object in the absence of planning conditions and or obligations which protect our residential amenity and address the associated highway impacts, as stated below.

As the only people who live directly next to the swimming pool, in that the building housing the pool abuts our boundary, we disagree with the comments of those who do not live near 30 Allandale Avenue, that there is no noise or disturbance. As to the noise, we can hear it from our sitting and eating area that is on the other side of the party wall to 30 Allandale Avenue. Also, our seating area in our garden, which we use daily when the weather permits, is next to the pool building. We can clearly hear instructions being shouted and that certainly destroys our amenity, such that whilst lessons are continuing we have stopped sitting outside.

There is substantial disruption in that vehicles are parked on both sides of the road, with the vehicles on the side of the farm often being parked with wheels up on the pavement. Particularly objectionable is that cars often block our drive and given that cars also park opposite our drive it is difficult to manoeuvre when seeking to reverse back into the drive. The habit of parents sitting in their cars outside with their engines running is unpleasant and polluting. To help address this we request if permission is granted, double yellow lines be painted on the farm side of the road opposite our driveway to stop vehicles being parked there.

If the planning authority is minded to approve the application in principle, we object to the hours during which the business is proposed to operate, which do not reflect its sensitive location being in a residential area. We would not in any event want the business operating on weekdays later than 6 pm, and most importantly, we do not think it appropriate that the business should be open for operation on weekends or on bank holidays and shouldn't be a venue for parties and large gatherings.

We also consider that, given this is a quiet residential area, the operators of the business should be required to act and to ensure that anyone attending the premises in connection with the business acts in consideration for the neighbours and local residents. That includes, keeping the noise down (it doesn't appear to be the children but the people shouting instructions that creates the nuisance) and being considerate when coming to drop off or collect children or even when parking for the duration.

Finally, we would ask that:

1. The air conditioning unit on the roof of the pool house and pretty much at our boundary (not shown on the plans) and facing into our garden, is moved, so we can't see it and it can't be heard from where we tend to sit.
2. There is a compressor, I suspect to do with the pool, that must be against our party wall. When it turns on our room (seating & dining area) we can hear a humming noise through the room. We would want this moved away from the wall.

We would like our concerns to be taken into consideration should the application be approved.
