Comment Reasons:

Comment: We are 3 houses away from swimming pool and have lived in this road for 25 years. It is of course important to be a considerate neighbour, and supportive to our community, but we can not see how a commercial swimming pool is a reasonable request, given the proposed hours and nature of activities that will take place.

The biggest issue faced on Allandale Avenue is both the volume of traffic that we already have (the road is often a rat-run and cars, despite the new speed restriction signs) and the double-parking. This can not be made worse by the increased in cars that the proposed scheme would create. When the road is busy, people park carelessly and selfishly. Our drive is often partially blocked and parking bumper to bumper on the opposite side of the road makes access to our property challenging. Please note that school coaches use the road and there are regular blockages when two large vehicles (give also the increase in home deliveries) can not navigate the double-parked cars.

Whilst the noise is audible for us at a lower level, I think that for all the immediate neighbours who have lived in this road for such a long time, it is completely unreasonable for them to have the quiet enjoyment of our homes and gardens shattered by the volume of proposed activity.

If the committee overlooks these serious concerns, then I echo the comments of Jonathan Berman (32 Allandale Avenue) that further parking restrictions of a double yellow line must be introduced for a significant part of the road. Also, weekends, bank holiday should under no circumstances be part of the consent and during weekdays a cut-off of 6.00 pm.
