

We have lived at number 35 Allandale Avenue now for over 20 years. As it stands we have high traffic on our road due to Charlgrove School, making it an issue to park outside our house during drop off and pick up. Added to the fact that so many people use our road as a cut through to avoid traffic often making it difficult to drive down our road at the best of times due to so many cars being parked and all the traffic. To have a commercial pool with lots of kids being picked up and dropped off is just too much. There is a public pool where kids can have lessons a few minutes away at Poolside Manor where they have dedicated parking spaces. This is a residential road and we would like it to stay that way.
